OBJECTIVE

Aspiring Full-Stack Developer (MERN Stack) and Computer Science undergraduate, currently building a strong foundation in web development and programming. Seeking opportunities to learn, grow, and contribute to real-world software projects.

EDUCATION

Bachelor of Technology in Computer Science and Engineering (CSE) 2024 – 2028 (Expected)
SRM University, Andhra Pradesh (SRMAP)
CGPA: 9.37 / 10.0

SKILLS

Technical Skills	HTML,CSS,JavaScript
Soft Skills	Problem Solving, Willingness to Learn, Time Management, Adaptability
Tools & Concepts	Git, VS Code, Data Structures & Algorithms

PROJECTS

Path-Finding-Visualizer. A simple interactive BFS pathfinding visualizer built with HTML, CSS, and JavaScript. It demonstrates how Breadth-First Search finds the shortest path on a grid. ([Try it here](#))

Civic-issue-platform. Full-stack app for reporting and resolving local issues. Citizens report with photos and map location, track status, and upvote. Admins triage, assign, and analyze. React + TypeScript frontend; Node/Express + PostgreSQL backend; JWT auth, Google sign-in, Socket.io updates, email notifications. ([Try it here](#))

Student-management-sytem. This project demonstrates a complete student management system implemented in CPP with role-based access control. The system allows different user roles (Admin, Staff, Guest) to perform specific operations on student records stored in text files. ([Try it here](#))

ACHIEVEMENTS

- Selected in Top 50 teams out of 500 in Smart India Hackathon (Campus Internal Round).
- Solved 100+ problems on LeetCode and CodeChef.
- Strong foundation in competitive programming and algorithmic problem solving.
- Actively participated in coding contests and hackathons.

EXTRA-CURRICULAR ACTIVITIES

- Actively exploring web development and programming concepts through self-learning and online resources.
